

PHARMACY PEOPLE, AMPLIFIED.

# Your new *favorite* employee.

Hoolie reads each e-prescription, types the SIG and days' supply into your pharmacy system, and leaves a note for your team. Less typing. More human care.

\$499/mo per location

First 30 days free

Cancel anytime

# Your team has better things to do than type.

Hoolie takes repetitive e-prescription entry off your team's plate so technicians and pharmacists can focus on the work that needs people.

1

## Queue work

Keep e-prescriptions moving instead of letting routine entry pile up.

2

## Consistency

Apply the same configured workflow every time, even when the store gets busy.

3

## Capacity

Return technician time to packaging, adjudication, phones, patients, and exceptions.

*Designed to process e-prescriptions in under 1 minute.*

A graphic with a dark blue background and orange and white wavy borders at the top and bottom. It features the text "Automate Pharmacy Data Entry. Give Your Team Their Time Back." in white and orange. Below this are three icons: a document for "Accurate Data Entry", a clock for "Consistent and Reliable", and a group of people for "More Time for Patients". The Hoolie logo and tagline "Pharmacy Work, Automated." are at the bottom.

**Automate  
Pharmacy Data Entry.**  
**Give Your Team  
Their Time Back.**

 Accurate  
Data Entry

 Consistent  
and Reliable

 More Time  
for Patients

**Hoolie™**  
Pharmacy Work, Automated.

# From prescription to possibility.

Three steps, on every e-prescription in your PioneerRx queue, through the same screens your team uses.

**1**

## Reads the script

Reads directions, quantity, and days' supply straight off the e-prescription in your queue.

eRx → Hoolie

**2**

## Types the SIG

Types your pharmacy's SIG codes and a calculated days' supply into the record, using your configured rules.

1 TAB PO BID x 10D

**3**

## Leaves a note

Anything it isn't sure about waits for a pharmacist, with the reason written down.

<> Continue to billing

**Administrative data entry, not clinical judgment. Pharmacist review and your workflow checks stay in place.**

# A typical instruction, entered your way.

A free-text direction from the prescriber, translated the way your pharmacy writes it.

## THE PRESCRIBER WROTE

*“Take 1 tablet by mouth  
twice daily for 10 days.  
Dispense 20 tablets.”*

## HOOLIE TYPED

SIG code

1 TAB PO BID x 10D

Days' supply

10

Note on the record

<> Continue to billing

Then your team reviews and verifies, exactly as it does today.

# Hoolie works through the same screens your team uses.

No direct PMS API

No database manipulation

No code changes

## Inside the pharmacy

Customer-controlled physical workstation

**Pharmacy  
management system**

**Hoolie automation**

Mouse • keyboard • menus • buttons • on-screen fields

Patient-identifying information stays on this computer in the current configuration.

## Limited data sent for AI review

NDC

SIG / directions

Notes

Quantity

No names or other patient identifiers. Free text is filtered for names, and any PHI is protected under our business associate addendum.

## Human review stays in the workflow

Your pharmacy determines required supervision, verification, and pharmacist judgment under its state law and policies.

## 2.5 hours a day back. The math is simple.

Illustrative example assumes a \$20/hour technician and 22 operating weekdays per month.

$$2.5 \text{ hrs/day} \times \$20/\text{hr} \times 22 \text{ days/mo} = \$1,100/\text{month}$$

of technician capacity  
returned

**55 hrs/month**

Technician time returned to  
higher-value work.

**\$499/month**

One simple Hoolie subscription.  
First 30 days free.

**\$601/month**

Illustrative net labor-capacity  
value after the subscription.

**1.13 hrs/day**

Approximate break-even time  
saved at \$20/hour.

**Annual illustration: \$13,200 labor capacity – \$5,988 Hoolie = \$7,212 net value** (≈120% illustrative ROI)

*Illustrative only and not a guarantee of results. Actual time savings vary by pharmacy, volume, and workflow.*

# 55 more technician hours, every month.

Hoolie does not replace your pharmacy team. It gives your team more room for the work that needs people.

## Patient care

More time for patients, facilities, caregivers, and coordination.

## Adjudication

Work rejections and payer issues instead of typing routine entries.

## Packaging

Keep cycle work, pouches, cards, and deliveries moving.

## Exceptions

Spend attention where judgment or troubleshooting is actually needed.

*A pharmacy team that can be in two places at once.*

A graphic advertisement for Hoolie. It features a dark blue background with orange and white geometric shapes. The headline "Do More of What Matters." is in white and orange. Below it are four icons in white circles: a heart, a person, a bar chart, and a leaf, each followed by a benefit. On the right, the phrase "Pharmacy People Amplified." is written in a white script font. At the bottom is the Hoolie logo and tagline.

**Do More of What Matters.**

-  Happier Teams
-  Better Patient Experiences
-  A More Efficient Pharmacy
-  A Healthier Tomorrow

*Pharmacy People Amplified.*

**Hoolie**<sup>TM</sup>  
Pharmacy Work, Automated.

# One simple price. No long-term commitment.

Try Hoolie free, then keep it only if it earns its place in your pharmacy.

# \$499

per month, per location

**FIRST 30 DAYS FREE**

Credit card only • Cancel anytime

\$1 at sign-up • Plus taxes and any PMS fee\*

## Free for 30 days after onboarding

A \$1 charge activates your account. Your 30 free days start once onboarding is complete, and we email a reminder 7 days before they end.

## Billing on your own cycle

After 30 days we charge \$498, which with your \$1 makes \$499. That day becomes your monthly billing date for \$499.

## Cancel anytime

Cancel in the free period and your \$1 is refunded. Cancel later and you're never charged again; access runs through your paid month.

## 7-day payment grace period

If a charge fails, we let you know and give you 7 days to update your card before service pauses.

\*PioneerRx locations: a \$40/month integration fee applies only once Hoolie becomes a PioneerRx Connected Vendor. Summary for sales purposes; the signed customer agreement controls.

# Three steps to put Hoolie to work.

Go from "interested" to onboarding without another round of meetings.

**1**

## Sign the agreement

Open the DocuSign packet, review the customer agreement, and sign electronically.

[Open DocuSign agreement →](#)

**2**

## Add your card

Enter a credit card for the \$1 sign-up charge. Your 30 free days start after onboarding, and we email you before the first charge.

[Open payment portal →](#)

**3**

## Onboard and launch

Set up the Hoolie workstation, choose your configuration, confirm the workflow, and start processing.
